

**Yasir Qureshi**  
**General Manager, Abound and Digital Solutions, Carrier**

Yasir Qureshi is General Manager for Carrier's Abound digital platform. He is recognized as a thought leader in IoT for helping large enterprises build an IoT vision, strategy and go-to-market. He has led engineering teams leveraging IoT Platforms to develop digital offerings from proof of concept to production.

Prior to joining Carrier, Yasir has held several leadership roles in IoT with Software AG, Stanley Black and Decker and Cisco. Yasir is an active board member at the Georgia Institute of Technology CDAIT (Center of IOT). He also chairs the Service Provider IoT Working Group at the IoT World Forum.

Yasir graduated with honors in Electrical and Computer Engineering from Georgia Tech and earned an MBA from Georgia State University.
